

## **CARMA Course: Generative-AI for Qualitative Research**

Course Leader: Christina Silver, PhD. University of Surrey, UK  
June 2<sup>nd</sup> – 5<sup>th</sup> 2025,  
10am – 3pm EDT  
3pm – 8pm BST  
ONLINE

### Accessing software for use in the session

**ChatGPT:** If you haven't already got an account signup here <https://auth.openai.com/create-account> If you have an account for an alternative (e.g. Claude, Gemini, Perplexity etc.) that is fine for the purposes of this course

**AILYZE:** Sign up for a trial account here <https://ailyze.com/register> You only need a browser to access and use AILYZE – no downloading of software

**Reveal:** Sign up for a trial account here: [app.doreveal.com/sign-up](http://app.doreveal.com/sign-up) You only need a browser to access and use Reveal – no downloading of software

**MAXQDA:** You can use the free trial version for the workshop. This is a 14-day trial, so do not activate it too soon. **Please note this is software you need to download and install so check well ahead of time if you have admin rights on your computer to be able to do this** – we do not have time during the workshop to troubleshoot installation issues. If you use an organizational computer you may not be able to install yourself so be in touch with you IT support to help with this.

**Please do the following a day or two before the workshop** – to give you some time afterwards to continue experimenting.

- Download and install the MAXQDA trial from here <https://www.maxqda.com/trial>
- Create a MAXQDA account here <https://teamcloud.maxqda.com/register/>

You need a MAXQDA account to be able to use the AI Assist features - so this step is essential - it is free to create but it is an additional step from downloading and installing the software.

Please ensure you have accessed the required software as detailed above before the session starts - we do not have time in the session to install software or troubleshoot access issues - if you have problems, please email Christina directly - [christina@qdas.co.uk](mailto:christina@qdas.co.uk)
